**Authors/Editors:** John Notis, Chuck Gates, Linda Smith, Lou Fredd

**County Seat:** Oregon City

**County Size:** 1879 square miles

**High Elevation :** Mt. Hood (11,239 ft.)

**Rarities :** Little Blue Heron, Cassin's Kingbird, Eastern Towhee, Costa's Hummingbird, Brown Thrasher, Black-throated Blue Warbler

**Top County Lister :** Tim Janzen (248)

**Year List Record :** Tim Janzen (209)

**County Contact Person:** Email [Tim Janzen](mailto:Tim.Janzen)

[return to the top](#)

Introduction: From the peak of the Cascades on its eastern border, to the Willamette River on the west, Clackamas County offers a range of habitats from alpine to oak savannah, although much of the county's nearly 1900 square miles is blanketed by the damp forests of the western Cascade Mountains and foothills. Hotspots that will draw non-local birders are large alpine lakes, good for summer breeders such as Bufflehead and Barrow's Goldeneye and migrants such as Solitary Sandpiper. Be sure to check streams for reliable American Dipper and (more difficult) Harlequin Duck. Rufous Hummingbirds enliven fireweed-choked summer clear-cuts, while Olive-sided Flycatchers and a surprising variety of woodpecker and sapsucker species call from the snags above. Clackamas County also gets the western half of Mt. Hood, which offers one of the more accessible opportunities to look for breeding Gray-crowned Rosy-finch.

[View A Google Map](#)

[eBird Hotspot Checklist for Willamette Falls](#) (more ebird data needed for this location)

**Location, Habitat, and Birds:** The falls are a partial barrier and hazard to fish migration (both directions) and consequently attracts piscivorous birds throughout the year. Aerial insectivores concentrate to forage over the turbulent water below the falls in season. Migrating Purple Martins and Black Swifts have been seen here. Sea lions are a possibility. The overlook is between downtown Oregon City and the Canemah District right off 99E (.6 miles south of the Hwy 43 bridge). From either direction on I-205, take Exit 9 ("Downtown Oregon City"), turn left onto Hwy 99E for 1.1 miles, look for the entrance to the overlook parking area on the right about a block short of the 2nd St traffic lights on the crest of the hill. Very safe parking and hard standing for scope (advisable), a waist high rock parapet guards against thoughtless approach to the vertical cliff on the other side. Panoramic view of the entire falls. Nice sign with historical information. Access is limited to southbound traffic, but it is an easy stop to make in that direction if one is going from West Linn's Camassia Natural Area to Molalla River State Park. Another viewpoint can be accessed from I-205 southbound. There is a pull-off and parking area about 7 miles from I-5. This site suggested by Lou Fredd and he's keeping a species list from this site. Species on that list

include (Waterfowl: Snow Goose S Canada Goose C Mallard FC Bufflehead S), (Grebes thru Herons: Pied-billed Grebe F Great Blue Heron C Green Heron C), (Diurnal Raptors: Turkey Vulture C Osprey C Northern Harrier S Red-tailed Hawk FC Peregrine Falcon S Bald Eagle S), (Shorebirds: Killdeer F Spotted Sandpiper FC), (Gulls: Mew Gull S Ring-billed Gull F Western Gull FC "Olympic Gulls" C California Gull C Herring Gull C HEXGWGU ? Thayer's Gull FC Glaucous-winged Gull C), (Pigeons thru Swallows: Rock Pigeon C Black Swift S Vaux's Swift C Anna's Hummingbird S Belted Kingfisher F Western Scrub-Jay S American Crow C Purple Martin S Violet-green Swallow C Cliff Swallow C Barn Swallow C), (Remainder: American Robin S European Starling FC Song Sparrow S Dark-eyed Junco S Brewer's Blackbird S Brown-headed Cowbird S House Finch F American Goldfinch S Lesser Goldfinch S House Sparrow F). **Abundance code is: C = most occasions FC = expected F = seen on a few occasions S = Seen on single occasion Seasonal considerations apply.**

## **CANBY AREA**

### **Molalla River State Park [return to the top](#)**

DeLorme (copyright 2001) Pg 60 B-3 DeLorme (copyright 2008) Pg 28 C-4

([45.295358, -122.701567](#))

[View A Google Map](#)

[eBird Hotspot Checklist for Canby Logging Trail](#)

**Location, Habitat, and Birds:** There are several access points to the trail, however for those out of town, the easiest place to access the trail is Eco

Park at 1314 NE Territorial Road in North Canby. Enter Canby from the NE on Hwy 99E. Turn right (north) on N. Redwood Street. Travel 0.7 miles to NE Territorial Road. Turn left (west) on Territorial and the parking area is 0.1 miles on your right. Park here and take the trail north. There are several trails into the woods here and you are free to explore. The trail goes north for 3.5 miles and you will have to walk about 0.8 miles to reach the river but it's worth the walk to access the riparian strip. The bird life here varies with the seasons but it can be productive in all seasons. It's particularly good for migrant passerines in the spring and fall. See the eBird checklist for a list of species.

### **Canby Community Park** [return to the top](#)

DeLorme (copyright 2001) Pg 60 B-3 DeLorme (copyright 2008) Pg 28 C-4  
**geographic coordinates** 45°15'03.3"N 122°42'14.6"W

[\(45.250916,-122.704054\)](#)

[View A Google Map](#)

[eBird Hotspot Checklist for Canby Community Park](#)

**Location, Habitat, and Birds:** Take Hwy 99E through Canby to the west end. Just before the Mollala River Bridge, turn south on SW Berg Parkway (13<sup>th</sup> St.). Go 0.1 miles and turn right into the park. Park the car and bird the woods and the water areas. There are substantial wetlands surrounding this park so many birds are drawn to this location. See the eBird checklist for a bird list. Including this with the other Canby locations will likely give you a good sampling of local bird life in any season.

### **Anderson Road Swale** [return to the top](#)

DeLorme (copyright 2001) Pg 60 B-3 DeLorme (copyright 2008) Pg 28 C-4  
**geographic coordinates** 45°14'26.1"N 122°44'46.1"W

[\(45.24057, -122.74615\)](#)

[View A Google Map](#)

[eBird Hotspot Checklist for Anderson Road Swale](#)

**Location, Habitat, and Birds:** Travel southwest out of Canby on Hwy99E for 2.5 miles to S. Anderson Road. Turn right (north) and begin birding. This road will wind through riparian strip and open farmland to give you a varied birding experience. You will end up heading back into Canby. This area has generated the third highest species list on eBird for the county so you should be sure to check it out. See the checklist for possible species.

# **MOLALLA AREA**

## **Hopkins Demonstration Forest** [return to the top](#)

DeLorme (copyright 2001) Pg 60 C-4 DeLorme (copyright 2008) Pg 29 D-6

[County Park Map](#) [Barton Park Website](#)

**Location, Habitat, and Birds:** Barton Park is located just off of Hwy. 224, approximately 9.8 miles east of Clackamas on the Clackamas River. Take Interstate 205 to Exit 12, Clackamas/Estacada. Turn east-bound onto Hwy. 212/224. Proceed 3.2 miles through Clackamas to the Hwy. 212/224 split (Rock Creek junction). Follow Hwy. 224 to the right, following the signs to Estacada. Proceed 6.4 miles on Hwy. 224 to Bakers Ferry Road and turn right (Barton Grocery on the right-hand side). The park is .2 miles on the left-hand side of the road. Go to the [Oregon Birding Trails](#). Choose the Willamette Valley Birding Trail. Click on the Trail Guide and choose the Heritage Loop Guide. Section H-11.

[eBird Hotspot Checklist for Wildcat Mountain](#) (more ebird data needed for this location)

**Location, Habitat, and Birds:** From Hwy 26 in Sandy, travel 2.0 miles east and turn south on Firwood Rd. It's a major intersection with a yellow blinker and a sign. Follow Firwood Rd. for 3.6 miles and turn left on Wildcat Mtn. Rd. (beware that you'll need to turn right 0.8 miles from Hwy 26 in order to stay on Firwood) Follow this road 10 miles to the top, stopping at pastures, streams, clear-cuts, and any other attractive habitat. You will enter Mt. Hood National Forest 6.5 miles up, and be sure to take a right on NF 105 at 9.5 miles in order to reach a large gravel pit at 3500 ft. elevation, where you get a nice view of the Eagle Creek portion of the Salmon-Huckleberry Wilderness. From here, you have the option of following several poorly developed trails up another 600 ft. of elevation to the top of McIntyre Ridge.

The route is generally open during a much wider season than Larch Mtn. (It's at a lower elevation and out of the path of the Columbia River Gorge's cold east winds.). This route is an excellent way to access mountain species in Clackamas County. While not a winter route, in late spring, summer, and early fall, you will find virtually all of the county mountain species along this route. You will find extensive mixed conifer second-growth forest scattered among clear-cuts. Species you might encounter include Ruffed Grouse, Sooty Grouse, Mountain Quail, Cooper's Hawk, N. Goshawk, Band-tailed Pigeon, N. Pygmy Owl, N. Saw-whet Owl, Common Nighthawk, Vaux's Swift, Calliope Hummingbird, Red-breasted Sapsucker, Hairy Woodpecker, Pileated Woodpecker, Olive-sided Flycatcher, Hammond's Flycatcher, Dusky Flycatcher, "Western" Flycatcher, Cassin's Vireo, Steller's Jay, Tree Swallow, White-breasted Nuthatch, Red-breasted Nuthatch, Brown Creeper, Winter Wren, both kinglets, Western Bluebird, Swainson's Thrush, Hermit Thrush, Varied Thrush, 7 warbler species, Western Tanager, 8 sparrow species, Black-headed Grosbeak, Lazuli Bunting, Brown-headed Cowbird, Cassin's Finch, Red Crossbill, Pine Siskin, American Goldfinch, and Evening Grosbeak.

## **Wildwood Recreation Area** [return to the top](#)

**Location, Habitat, and Birds:** Go to the [Oregon Birding Trails](#) Website. Choose the Cascades Birding Trail. Click on the Trail Guide and choose the Mt Hood Loop Guide. Section 18.

**Location, Habitat, and Birds:** From Portland Airport - Airport Way to I-205 South > 205 South to I-84 East (The Dalles exit) I-84 East to exit 16 "Wood Village" Right at stop sign on to 238th Follow 238th (which becomes 242nd) to Burnside (approx. 3 mi.) Left on Burnside (U-Haul rentals on the corner) Burnside turns into Hwy 26 East at the Newport Bay restaurant Follow Hwy 26 East to the Timberline Road turn-off (about 40 mi.); pass through the towns of Sandy, Welches, and Rhododendron Turn left on the Timberline access road; follow the road to Timberline (6 mi.) Road dead-ends in the Timberline parking lot. Hotel guests proceed to upper parking lot in front of main lodge. Ski Area guests park in lower main parking lot near day lodge. From Hood River - Take OR-35 South, US 26W (toward Portland), Turn right on Timberline access road; follow the road to Timberline (6 miles). Road dead-ends in the Timberline parking lot. Hotel guests proceed to upper parking lot in front of main lodge. Ski Area guests park in lower main parking lot near day lodge. The birding here is typical of high cascades birding. The diversity is not particularly high but what you do find will satisfy. Check the snow fields for Gray-crowned Rosy-Finches. Clark's Nutcrackers and Gray Jays should greet you at the lodge. Red Crossbill flocks may have a stray White-winged Crossbill. Black-backed Woodpeckers are around and Dark-eyed Juncos nest in the area.
